SUMMARY

Batumi Army Barracks Gogol UL is located 2 kilometers (km) east of Batumi (Figure 1).

The barracks installation consists of 2 separate sections: a barracks/motor pool area and a probable barracks/motor pool area 1 km southeast. The first area encompasses 25 acres and contains the following buildings: 4 barracks/administration, 5 barracks, 20 support, and 8 vehicle storage. Also included within the area are 3 vehicle parks with numerous vehicles, and an athletic field. The second area, covering 70 acres, contains the following buildings: 4 administration, a bar-

racks/administration, 7 barracks, 3 storage, 20 support, 12 vehicle storage, and 25 dependent/officers quarters. There is also 1 vehicle park, containing many vehicles, and an exercise field (Figures 2 and 3). A compound, containing 8 buildings, located directly south gives some appearance of being military; however, there is not sufficient evidence to warrant its inclusion in this report.

Study of [REDACTED] KEYHOLE missions of interpretable quality of [REDACTED] reveals no change in the levels of usage or physical facilities.
